

TABLEMAX INSTALLS WORLD'S FIRST ELECTRONIC CARIBBEAN STUD® POKER GAME

Successful Installation at Bordertown Casino & Bingo in Seneca, Oklahoma

LAS VEGAS (May 28, 2008) - Less than a week after receiving GLI certification, TableMAX Holdings LLC has successfully completed the world's first installation of its Caribbean Stud® Poker electronic table game. The game is live and attracting players now at Bordertown Casino & Bingo in Seneca, Okla.

The installation means that casino players at Bordertown, and soon across North America, are competing for more life-changing jackpots with TableMAX's proprietary progressive jackpot feature. It also marks a key milestone in TableMAX's rapid development.

TableMAX CEO Stephen Crystal said, "This is a pinnacle moment in our company's exciting history. Less than seven days after receiving our certification, the deal was made and the installation completed. We believe this is a sign of tremendous things to come."

Adding to the significance is the fact that TableMAX's Progressive Blackjack™ has been in use at Bordertown since early 2007. Bordertown Slot Director Steve Blazer said, "We have been extremely pleased with the results we are getting from Progressive Blackjack, and more importantly, our players love it. So when TableMAX said their Caribbean Stud Poker was now available, we moved as quickly as possible to bring the game to our floor."

Caribbean Stud Poker is widely recognized as the game that reinvigorated traditional tables and has enjoyed broad acceptance from players worldwide. The TableMAX version of Caribbean Stud Poker is played on the company's electronic table game platform, taking the game to a multi-table/multi-casino network. On the TableMAX platform, players compete for slot like progressive jackpots. Jackpots are paid when a player successfully is dealt a royal flush.

TableMAX Holdings LLC is a leading developer of electronic table games and designs, engineers and distributes patented electronic table games worldwide. TableMAX owns global rights to proven and popular table game content, including Progressive Blackjack™, Caribbean Stud® poker, Caribbean Draw® poker, Texas Hold 'Em Bonus Poker and Bonus Blackjack.
