### *Certification Adds To TableMAX's Exciting Game Content*

LAS VEGAS (May 15, 2008) – Casino players across North America will soon be competing for more life-changing jackpots due to the fact TableMAX Holdings LLC's has received GLI certification for its Caribbean Stud® poker electronic table game, the second-most popular proprietary table game ever introduced to the gaming market.

The certification adds to TableMAX's library of exciting game content. The company's Progressive Blackjack™ game was previously certified and is in the field attracting players today. The company has submitted other games to GLI which are pending certification, including Caribbean Draw® Poker, following soon with Bonus Blackjack and Texas Hold 'Em Bonus Poker, which blasted on to the gaming floor as the fastest adopted proprietary felt table game of any size ever released.

TableMAX CEO Stephen Crystal said, "This is very exciting news, not just for the company but for casinos and their customers. Caribbean Stud Poker is widely recognized as the game that reinvigorated traditional tables and is now the most popular table game in the market; that combined with the excitement TableMAX's progressive jackpots is a win for operators and players."
